

DSPACE Documentation

1-Add Logo (replacing dspace default logo)

Go to opt-tomcat-webapps-jspui-header-default.jsp (In place of logo.gif put your image name)

```
<div class="col-md-3">

</div>
```

2) ADD Links on Menu

opt-tomcat-webapps-jspui-navbar-default.jsp

```
<li class="<%= ( currentPage.endsWith( "/help" ) ? "active" : "" ) %>"><dspace:popup
page="<%= LocaleSupport.getLocalizedMessage(pageContext, \ "help.index\ " )
%>"><fmt:message key="jsp.layout.navbar-default.help"/></dspace:popup></li>
```

After this line put your links:

Like:

```
<li><a href=#>OPAC</a></li>
```

3) Change name on Green Line:

```
/dspace/config/dspace.cfg
```

In place of DSpace at my University-> Put your institute name (Restart the tomcat if required)

4) Edit top or side news:

There are two methods to edit top or side news

a) Through Interface

login to your dspace with admin- administrator-news-select top or side news to modify
you can also put your html code here

b) Through file:

/dspace/config/news-top.html or news-side.html

Put all your html and css coding here as per requirements

5) Modify footer

opt-tomcat-webapps-jspui-footer-default.jsp

6) Modification on home page

opt-tomcat-webapps-jspui-home.jsp

put all your changes or code in this file to reflect on home page
